

## FAIRFORD RUGBY FOOTBALL CLUB

Affiliated with the GRFU. Member of the Stroud Combination. Established 1997

### Rugby Safe procedure at Fairford RFC

Whilst the health and wellbeing of all of our players and members remains a key priority, everyone at FRFC has a responsibility to player welfare and RugbySafe. Should any FRFC player sustain an injury during training or matches the following protocol should be put in place.

The club will notify the insurers and record witness statements if there is potential for insurance or personal injury claims.

Any player sustaining an injury is welcome to attend an injury clinic with Prime Practise - please book via SPOND or contact Danny Briggs for more information.

**\*FRFC do advise having your own personal accident insurance\***
